NUTRITIONAL INFORMATION:

kcal/mL: 1.5
Protein: 24%
Fat: 58%
Carbohydrate: 15%
Fiber: 3%

Protein Content/Source: 31g/341g
Organic Hydrolyzed Pea Protein, Organic Pumpkin Seed Protein, Organic Garbanzo Beans, Organic Green Peas, Organic Whole Grain Brown Rice, Organic Almond Butter

Fiber Content/Source: 8g/341g
Organic Garbanzo Beans, Organic Pumpkin Seed Protein, Organic Green Peas, Organic Hydrolyzed Pea Protein, Organic Carrots, Organic Almond Butter, Organic Rice Milk Powder, Organic Sprouted Quinoa, Organic Parsley, Organic Sweet Potato

NPC:N Ratio: 80:1
Omega-6 to Omega-3 Ratio: 0.4:1
Water: 246g/341g pouch
Meets 100% DRI for 25 essential vitamins and minerals for adults ages 18+*: 4.5 341g pouches

HCPCS Code: B4153
NDC Code: 57858-0004-32

USER GUIDE:

- **Please check with your medical team for an appropriate transition regimen if switching from a commercial enteral formula to Liquid Hope Peptide High Protein. You may need to transition slowly over the course of 7-10 days to allow the body time to adapt to differences in the formulas.**
- **Liquid Hope Peptide High Protein has a 12-hour ambient room temperature hang time.**
- **Store unopened formula at room temperature.**
- **Once opened, the formula can be refrigerated in a sealed container and used within 24 hours.**
- **Water may be added. If adding water or any liquid, it must be reblended with the product to emulsify in order to prevent separation. Addition of any liquid will reduce hang time.**
- **The formula can be eaten orally.**

*May be appropriate for individuals ages 14-18 at the discretion of a healthcare provider under medical supervision.

*mL range is given due to the volume being affected by viscosity, altitude, and temperature. For the most accurate measurements please use the grams listed. All nutritional information contained herein is calculated using 341g per pouch.

Liquid Hope Peptide High Protein undergoes regular nutritional analysis and lab testing. However, as with all real food products, the nutrient levels may vary due to growing season, soil, and weather conditions. If you have a specific medical condition that requires you to be exact with certain nutrient levels, please discuss the use of this product with your medical team.

SPECIAL NOTES:
*mL range is give due to the volume being effected by viscosity, altitude and temperature. For the most accurate measurments please use the grams listed. All nutritional information contained herein is calculated using a 341/per pouch gram weight measurement.
**DRI% is developed by the Institute of Medicine that refers to set levels of nutrients to meet the nutrient requirements for adults 18 and older. We recommend that you follow your physician's or dietitian's recommendations for the volume of formula necessary to meet both your macro and micronutrient requirements.

Liquid Hope Peptide High Protein undergoes regular nutritional assessment and lab testing. However, as with any real food product, variations in the nutrient levels can vary depending on time of year, soil, and weather conditions. Although we do our best to provide you with the most accurate nutrient information as possible, if you have a medical condition that requires you to be precise with specific nutrient levels, please discuss the use of this product with your medical team.
